Special Issue: 8th International Conference on Chemistry and Migration Behaviour of Actinides and Fission Products in the Geosphere–Migration '01

September 16–21, 2001, Bregenz, Austria

Guest Editors: Jae-Il Kim and Horst Geckeis

Preface 1

Observation and characterization of colloids derived from leached cement hydrates
T. Fujita, D. Sugiyama, S.W. Swanton and B.J. Myatt 3

Generation and stability of bentonite colloids at the bentonite/granite interface of a deep geological radioactive waste repository
T. Missana, Ú. Alonso and M.J. Turrero 17

Eu^{3+} uptake by calcite: Preliminary results from coprecipitation experiments and observations with surface-sensitive techniques
S.L.S. Stipp, L.Z. Lakshtanov, J.T. Jensen and J.A. Baker 33

Diffusion of tritiated water and $^{22}Na^{+}$ through non-degraded hardened cement pastes
J. Tits, A. Jakob, E. Wieland and P. Spieler 45

Simultaneous estimation of effective and apparent diffusion coefficients in compacted bentonite
J.L. Cormenzana, M. García-Gutiérrez, T. Missana and Á. Junghanns 63

Diffusion of HTO, $^{36}Cl^{-}$ and $^{125}I^{-}$ in Opalinus Clay samples from Mont Terri: Effect of confining pressure
L.R. Van Loon, J.M. Soler and M.H. Bradbury 73

Effect of silica sand on activation energy for diffusion of sodium ions in montmorillonite and silica sand mixture
J. Liu, H. Yamada, T. Kozaki, S. Sato and H. Ohashi 85

Study of the contaminant transport into granite microfractures using nuclear ion beam techniques
U. Alonso, T. Missana, A. Patelli, V. Rigato and P. Rivas 95

Formation factor logging by electrical methods: Comparison of formation factor logs obtained in situ and in the laboratory
M. Löfgren and I. Neretnieks 107

Modelling of silica diffusion experiments with ^{32}Si in Boom Clay
M. Aertsens, P. De Cannière and H. Moors 117

Influence of the mode of matrix porosity determination on matrix diffusion calculations
K. Ota, A. Möri, W.R. Alexander, B. Frieg and M. Schild 131

Diffusivity measurement of heavy ions in Wyoming montmorillonite gels by X-ray computed tomography
Y. Nakashima 147

Solute transport in crystalline rocks at Äspö — I. Geological basis and model calibration
M. Mazurek, A. Jakob and P. Bossart 157
Solute transport in crystalline rocks at Äspö — II: Blind predictions, inverse modelling and lessons learnt from test STT1
A. Jakob, M. Mazurek and W. Heer 175
In situ diffusion experiment in granite: Phase I
P. Vilks, J.J. Cramer, M. Jensen, N.H. Miller, H.G. Miller and F.W. Stanchell 191
Characterisation of HTO diffusion properties by an in situ tracer experiment in Opalinus clay at Mont Terri
J.-M. Palut, Ph. Montarnal, A. Gautschi, E. Tevissen and E. Mouche 203
Swedish-German actinide migration experiment at ÄSPÖ hard rock laboratory
B. Kienzler, P. Vejmelka, J. Römer, E. Fanghänel, M. Jansson, T.E. Eriksen and P. Wikberg 219
Release of uranium from rock matrix—a record of glacial meltwater intrusions?
K. Rasilainen, J. Suksi, T. Ruskeeniemi, P. Pitkänen and A. Poteri 235
Uranium transport around the reactor zone at Bangombé and Okélobondo (Oklo): examples of hydrogeological and geochemical model integration and data evaluation
I. Gurban, M. Laaksoharju, B. Madé and E. Ledoux 247
Geochemical evaluation of different groundwater–host rock systems for radioactive waste disposal
V. Metz, B. Kienzler and W. Schüßler 265
RES^{3}T-Rossendorf expert system for surface and sorption thermodynamics
V. Brendler, A. Vahle, T. Arnold, G. Bernhard and T. Fanghänel 281
Modeling diffusion and adsorption in compacted bentonite: a critical review
I.C. Bourg, A.C.M. Bourg and G. Sposito 293
Intercomparison of reactive transport models applied to UO_2 oxidative dissolution and uranium migration
L. De Windt, A. Burnol, P. Montarnal and J. van der Lee. 303
Sensitivity analysis of radionuclide migration in compacted bentonite: a mechanistic model approach
M. Ochs, B. Lothenbach, M. Shibata, H. Sato and M. Yui 313
Porewater chemistry in compacted re-saturated MX-80 bentonite
M.H. Bradbury and B. Baeyens 329
Interpretation of out-diffusion experiments on crystalline rocks using random walk modeling
P. Sardini, F. Delay, K.-H. Hellmuth, G. Porel and E. Oila 339
Prediction of some in situ tracer tests with sorbing tracers using independent data
I. Neretnieks and L. Moreno 351
Determination of the flow-wetted surface in fractured media
J. Crawford, L. Moreno and I. Neretnieks 361
A sensibility analysis of model selection in modeling the reactive transport of cesium in crushed granite
H.-P. Cheng, M.-H. Li and S. Li. 371
Modelling of nonreactive tracer dipole tests in a shear zone at the Grimsel test site
W. Pfingsten and J.M. Soler 387
Geochemical modelling of bentonite porewater in high-level waste repositories
P. Wersin 405
An analytical model for the interpretation of pulse injection experiments performed for testing the spatial variability of clay formations
M. Aertsens, M. Put and A. Dierckx 423
